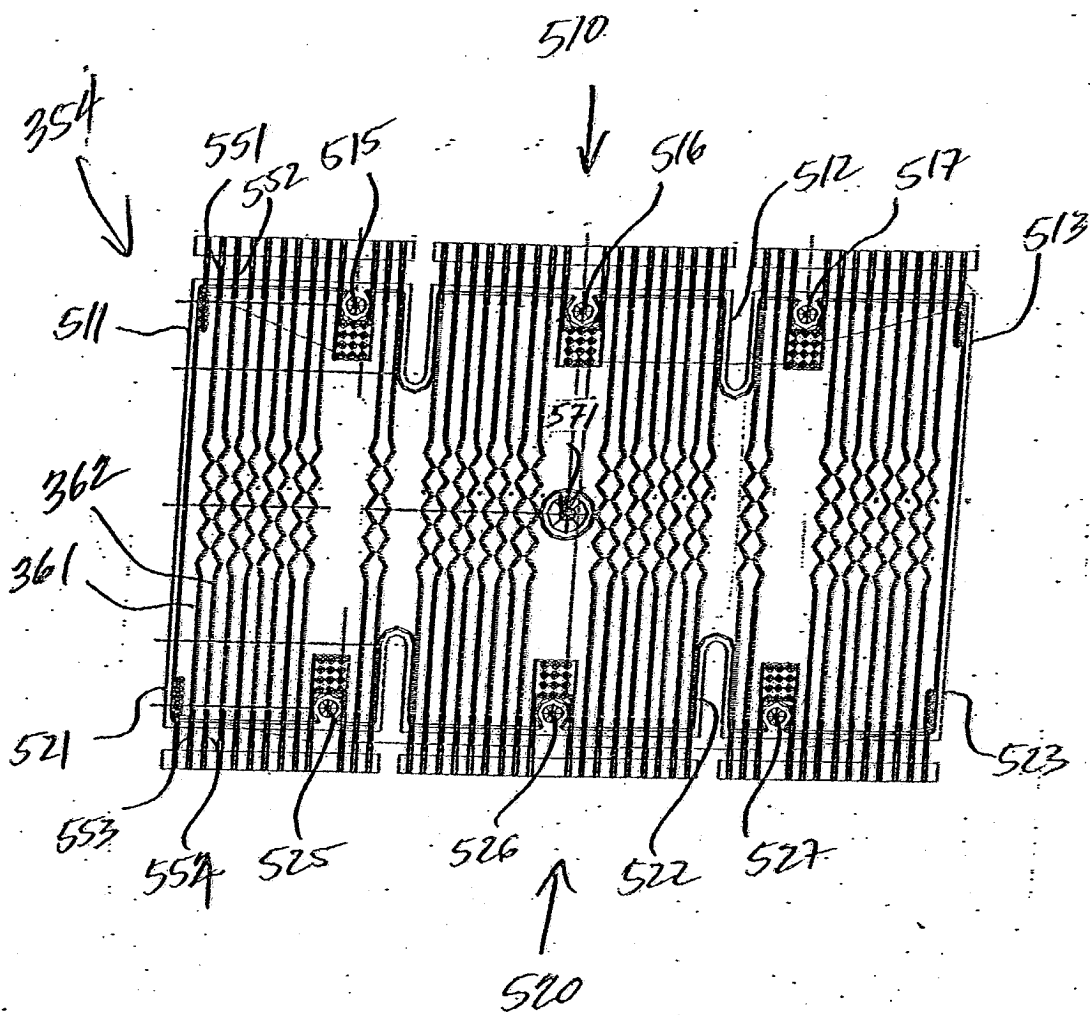

FIG. 5

This diagram shows an exploded perspective view of a bracket assembly. A large, flat rectangular plate (352) is positioned above a bracket (354). The bracket has a curved front edge (640) and a series of mounting holes. A long, narrow strip (355) is shown being inserted into a slot on the bracket. This strip features several rectangular blocks (534, 535, 536, 537, 538) and a small circular feature (650). A screw (600) is shown passing through the strip and the bracket. Four screws (544, 545, 546, 547) are shown being inserted into the bracket from below. A fifth screw (548) is shown passing through the bracket and the strip.
